We reviewed a request dated June 25, 1998, submitted on your behalf by the Honorable Tim Holden, U.S. House of Representatives for a Letter of Map Amendment (LOMA). All required information for this request was received on July 8, 1998. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we determined that the property described below is not located in a Special Flood Hazard Area (SFHA), the area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood).

Property Description:	A parcel of land, as described and recorded in Deed Document No. 6003, Volume 1815, Pages 464-467, filed on May 11, 1982 in the Berks County Recorder of Deeds Office
Street Address:	50 Haas Road

The property is correctly shown outside the SFHA on the above-referenced NFIP map. The property is located in Zone X (unshaded). Flood insurance coverage for the structure may be available under a low-cost policy (see enclosed document).

If the policy has been written using an incorrect zone, it can be endorsed to correct the zone for the current policy year and one prior policy term. You should contact your insurance agent or company to request endorsement of the policy.

Additional information about LOMAs is enclosed. If you have any questions about this letter, please contact Ms. Helen Cohn of our staff in Washington, D.C., either by telephone at (202) 646-3457 or by facsimile at (202) 646-4596.

Sincerely,

Matthew B. Miller
