We reviewed a request submitted on your behalf by the Honorable Tim Holden, U.S. House of Representatives dated July 1, 1998, for a Letter of Map Amendment (LOMA). All required information for this request was received on July 21, 1998. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we determined that a portion of the property described below is located in a Special Flood Hazard Area (SFHA), the area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood); however, the structure on the property is not in the SFHA.

Property Description:	Lot No. 5, "Galahad Glen", as described and recorded in Deed Document No. 20754, Volume 2143, Pages 1672 and 1673, filed on June 1, 1990, in the Berks County Recorders' Office
Street Address:	6 Galahad Lane
Flooding Source:	Monocacy Creek/Schuylkill River

The structure is correctly shown outside the SFHA on the above-referenced NFIP map. The structure is located in Zone X (shaded), an area below the 0.2-percent-annual-chance flood level. Flood insurance coverage for the structure may be available under a low-cost policy (see enclosed document). Because portions of the property remain in the SFHA, any future construction or substantial improvement on the property remains subject to Federal, Commonwealth, and local regulations for floodplain management.

If the policy has been written using an incorrect zone, it can be endorsed to correct the zone for the current policy year and one prior policy term. You should contact your insurance agent or company to request endorsement of the policy.

Additional information about LOMAs is enclosed. If you have any questions about this letter, please contact Ms. Helen Cohn of our staff in Washington, D.C., either by telephone at (202) 646-3457 or by facsimile at (202) 646-4596.

Sincerely,

Matthew B. Miller
