We reviewed a request submitted on your behalf by Congressman Tim Holden dated March 17, 1998, for a Letter of Map Amendment (LOMA). All required information for this request was received on April 23, 1998. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we determined that a portion of the property described below is not located in a Special Flood Hazard Area (SFHA), the area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood); however, the structure on the property is not in the SFHA.

Property Description:	A parcel of land as described in Deed Document No. 14781, recorded in Volume 1639, Pages 259-261, recorded on September 21, 1973 in the Berks County Recorder of Deeds' Office
Street Address:	20 Schmehl Road
Flooding Source:	Tributary to Laurel Run

The structure is correctly shown outside the SFHA on the above-referenced NFIP map. The structure is located in Zone X (unshaded). Flood insurance coverage for the structure may be available under a low-cost policy (see enclosed document).

If the policy has been written using an incorrect zone, it can be endorsed to correct the zone for the current policy year and one prior policy term. You should contact your insurance agent or company to request endorsement of the policy.

Additional information about LOMAs is enclosed. If you have any questions about this letter, please contact Ms. Helen Cohn of our staff in Washington, D.C., either by telephone at (202) 646-3457 or by facsimile at (202) 646-4596.

Sincerely,

Matthew B. Miller
