SECOND GEOLOGICAL SURVEY OF PENNSYLVANIA
J.P. LESLEY, STATE GEOLOGIST.

MAP

SHOWING THE POSITION OF THE

PITTSBURGH COAL BED

IN

LINCOLN, ELIZABETH AND FORWARD TOWNSHIPS

ALLEGHENY COUNTY

WITH CONTIGUOUS TERRITORY ALONG THE

MONONGAHELA AND YOUGHIOGHENY RIVERS

BETWEEN

McKEESPORT, COLUMBIA AND PORT ROYAL

COMPILED BY

E.V. D'INVILLIERS, ASSISTANT GEOLOGIST

SCALE 200 RODS (3300 FEET) TO 1 INCH.

NOTES.

1. The outcrop of the Pittsburgh Coal Bed is shown in black.
2. The shape of the floor of the same bed is shown by contour curve lines in red.
3. The positions of the anticlinal and synclinal axes are shown by red lines.
4. This map has been compiled from R.I. McKinney's map of the territory between the rivers in which the property lines are indicated, from county maps and from personal surveys and geological examinations by E.V. d'Invilliers.

Note:
In all properties on this map where ROMAN type is used, both the coal and surface rights are owned by the person or corporation whose name appears there.
The names appearing in Italics indicate that the surface rights alone are owned. J.R.S.
