

95

NOTE
The property lines and other surface features on this map were taken from a map filed in the office of the Surveyor General and are not guaranteed to be correct. It is suggested that a spot check be made by the owner of the property to which this map is applied.

NOTE
Coal sections marked on this map are the General Coal only, which is the coal being mined. Over this is a section of Bituminous coal which is only taken in places for height.

Average Bit Section
 Shaft 0.5'
 Coal 7.5'
 Total 8.0'
