3-E-1

Total Area Mined Over (Excluding pillared areas) 453 Acres. Assuming that this is approximately 50% mined means that there are 226.50 acres now remaining in pillars at an average 36" thickness or 1,223,100 net tons.

Other solid areas to property and crop lines contain 2769.12 acres or 14,953,248 net tons (This is area to the West of approximate fault line)
