ROCHESTER & PITTSBURGH COAL COMPANY
MINES OF PENNSYLVANIA COAL AND MANUFACTURERS OF COKE
INDIANA, PENNSYLVANIA
October 29, 1906

To the best of my knowledge this mining plan shows the extent of mine workings in the upper freepost seen overlying the lower stratum seen presently operating, and that the logs of well holes, numbers 161 and 162 are true and correct as a part of the records of Rochester & Pittsburgh Coal Company, owner of the area to be mined.
