

LEGEND

- UNDERGROUND PERMIT BOUNDARY
- SUBSIDENCE CONTROL BOUNDARY
- OCCUPIED DWELLING
- SURFACE PARCEL IDENTIFICATION NUMBER
- SURFACE PROPERTY LINE
- LIMIT OF PROPOSED MINING
- CASWELL
- PROJECTED COAL MINING
- COAL MINED
- STOPPING
- STOPPING W/ DOOR
- STOPPING WITH HOLE
- CHECK CURTAIN
- REGULATOR
- DOUBLE DOORS
- RUN-THROUGH CHECK
- OVERCAST
- INTAKE AIR
- RETURN AIR
- CO MONITOR
- MONITORING POINT
- TAIL PIECE
- BELT
- PRIMARY ESCAPEWAY
- SECONDARY ESCAPEWAY
- MINED OUT AREA

NOTE: This map was assembled using electronically scanned images of the Dunkard No. 2 mine maps, a map identified on the final map of the Mathews Mine, and an electronic map of the Crowded Mine-A Portal. The maps were provided by PADEP, MEFSS, and Cobra Mining, LLC. CME Engineering LP carried out both a GPS Survey and an underground check survey to physically locate identifiable features common to all three mines and to locate the underground workings of the Dunkard No. 2 Mine. No survey data was available for either the Mathews Mine or the Dunkard No. 2 Mine other than the surveys carried out by CME Engineering LP. The survey information has been added to the maps and was used to geo-reference the mine maps. No adjustments or alterations were made to the images of any of the mine maps utilized.
