Surface and coal seams are the same unless otherwise noted on the map.

Unless otherwise noted the subsidure boundary and joint boundary are correct.

**T.J.S. MINING, INC.**  
**DARMAK NO. 3 MINE**  
**FINAL MAP**

This is the Final Map of the DarmaK No. 3 Mine. The CRMP Number is PA 031453. The mine is active and the proposed plan area is shown. This map was prepared by T.J.S. Mining, Inc. in August of 1994. T.J.S. Mining, Inc. is a registered Professional Engineer in the State of Pennsylvania, P.E. No. 12484. The map was prepared using the most accurate and up-to-date information available. The map was prepared using the most accurate and up-to-date information available. The map was prepared using the most accurate and up-to-date information available.

The DarmaK No. 3 Mine is not located by any active mine. Any mining adjacent to the DarmaK No. 3 Mine has been completed.

This map represents the final shaft and mine survey of the DarmaK No. 3 Mine. Since the mine was purchased by T.J.S. Mining, Inc. in August of 1994, I can only certify the information from that date forward. However, there has been no indication that the previous owners, DarmaK Acquisition Corp. and DarmaK Mining, derived from any other survey or mapping methods. It is my opinion that the final map is an accurate representation of the final workings of the DarmaK No. 3 Mine.

I certify that to the best of my knowledge this final map of the DarmaK No. 3 Mine is an accurate representation of the facts of the DarmaK No. 3 Mine and indeed the true "FINAL MAP".
