ROCHESTER & PITTSBURGH COAL COMPANY

MINERS OF BITUMINOUS COAL AND MANUFACTURERS OF COKE

INDIANA, PENNSYLVANIA

October 29, 1966

J. L. Schleiter
Chief Mining Engineer

To the best of my knowledge this mining plan shows the extent of mine workings in the upper freeport seam overlying the lower kittanning seam presently operating, and that the logs of drill holes, Numbers 161 and 164 are true and correct as a part of the records of Rochester & Pittsburgh Coal Company, owner of the area to be mined.

J. L. Schleiter
Chief Mining Engineer
