NOTE: This map was assembled using electronically scanned images of the Dunkard No. 2 Mine map, a map identified as the final map of the Matthews Mine, and an electronic map of the Crowded Mine-A Portal. The maps were provided by PADEP, MPRCO, and Cobra Mining, LLC. CME Engineering, LP carried out both a GPS Survey and an underground check survey to physically locate identifiable features common to all three mines and to locate the underground workings of the Dunkard No. 2 Mine. No survey data was available for either the Matthews Mine or the Dunkard No. 2 Mine other than the surveys carried out by CME Engineering LP. The survey information has been added to the maps and was used to geo-reference the mine maps. No adjustments or alterations were made to the images or any of the mine maps utilized.
