NOTE  
 This map is designed to show the coal lands in Belmont county to a better advantage than the TOWNSHIP MAPS of said county. It is compiled from the same and covers as far as the records of the county. The Township Maps are maps through as to land owners and have complete indexes covering all real estate in the county including the smallest tracts, also a Directory of Mines. It also shows coal lands, but not in color. Pittsburg or N.B. Coal the only seam considered.
