

Hand-drawn geological cross-section of a mine tunnel. The diagram shows a main tunnel (thick black line) and a lower tunnel (dashed line). The main tunnel is labeled "FRENCH" and "AYONDALE N.1." at the top. The lower tunnel is labeled "ROSS" and "RED ASH". The diagram includes numerous vertical lines representing boreholes (B.H.) and various measurements (e.g., C. 6'0", C. 12'0", C. 15'0"). A red line highlights a specific path or feature. A scale bar at the bottom right indicates 1000 feet. The drawing is signed "P-6-A-10" at the bottom center.
