The areas and dimensions of this map were obtained by aerial photographs which have been interpreted mechanically. Where possible such measurements have been verified. Sometimes by interview with the property owner and some times by checking the measurements shown in the owner's records. In no instances were the measurements verified by field survey and they are not so represented. This map has been prepared for the purpose of assisting the County Commissioners and other local officials in making proper tax assessments and should not be interpreted or accepted as an individual property survey in transference of deeds or other legal transactions.
