JAS. HAMILTON	WHEELING	
RICHARD W. DAWSON ET AL.	WHEELING	

This map is designed to show the coal lands in Belmont County to a better advantage than the township maps of this county. It is compiled from the same and is as far as possible correct. The Township Maps are maps through as to land owners and have complete indexes covering all real estate in the county including the smallest tracts, also a Directory of Mines. It also shows coal lands, but not in color. Pitney or N.B. Coal the only seam considered.
