

- GENERAL NOTES:**
1. THE DEPTH AND THICKNESS OF THE SUBSURFACE STRATA INDICATED ON THE SECTIONS WERE GENERALIZED FROM AND INTERPOLATED BETWEEN TEST BORINGS FROM THE DATA REPORTED ON THE BORING LOGS. INFORMATION ON SUBSURFACE CONDITIONS AND WATER LEVELS EXISTS ONLY AT THE SPECIFIC LOCATION OF EACH TEST BORING AND AT THE PARTICULAR TIMES OF THE EXPLORATORY WORK. THE STRATIFICATION LINES REPRESENT THE APPROXIMATE BOUNDARIES BETWEEN SOIL AND/OR ROCK TYPES AND THE TRANSITION MAY BE GRADUAL. IT IS POSSIBLE THAT THE PASSAGE OF TIME MAY RESULT IN A CHANGE IN THE SOIL CONDITIONS AND/OR WATER LEVELS AT THESE BORING AND TEST PIT LOCATIONS AND THAT THE SUBSURFACE CONDITIONS AND/OR WATER LEVELS BETWEEN THE TEST BORINGS MAY VARY FROM THOSE INDICATED.
 2. FOR PLAN AND LOCATION OF BORING AND TEST PITS SEE DRAWING 82-312-EL.
